Summary

Aspiring Full Stack Developer with a strong foundation in computer science and a passion for crafting performant, user-focused solutions. Experienced in building real-world applications — from eCommerce platforms to ML-based health tools — and deploying them on cloud and Linux servers. Eager to contribute to fast-paced development teams and grow through hands-on innovation.

Key Skills

- Full Stack Web Development
- API Design & Integration
- Frontend Architecture (React, Next.js)
- Backend Development (Node.js, Express)
- Database Design (MongoDB, SQL)
- Cloud Deployment (Vercel, NGINX, GCP)
- Version Control (Git, GitHub)
- Agile & Team Collaboration

Education

Anjuman Institute of Technology and Management

2022 – 2026

Bachelor of Engineering in Computer Science and Engineering

Bhatkal, Karnataka

- CGPA: 8.0/10 (as of 6th semester) — Coursework: Data Structures, Algorithms, DBMS, Operating Systems, OOP, Web Technologies, Machine Learning

Experience

RG SmartDiscovery LLP

Aug 2025 – Present

Frontend Developer Intern

India (Remote)

- Developing dynamic and responsive web interfaces for nxnearby.com using React.js.
- Implementing reusable UI components and enhancing performance across key user flows.
- Collaborating with design and backend teams to deliver cohesive, high-quality features.
- Ensuring clean, maintainable, and scalable code aligned with best front-end practices.

Projects

eCommerce Store | MERN Stack [GitHub]

April 2025

- Developed a luxury eCommerce platform with 20+ product listings and fully responsive design.
- Designed a modern, responsive UI with advanced product filtering for an elegant and seamless shopping experience.
- Used Imgix to speed up image delivery, cutting load times by 60% and boosting Core Web Vitals.
- Implemented RESTful APIs and optimized cross-device performance to reflect the brand's premium identity.

Hub Zero Website | Next.js, React, TypeScript, Tailwind CSS, Vercel [GitHub]

January 2025 – Present

- Led end-to-end development of Hub Zero's official website, converting it from static to a dynamic platform.
- Built a responsive, modular UI with React and Tailwind CSS for consistency across devices.
- Improved a team portfolio system with JSON-driven data and Framer Motion animations.
- Deployed and optimized on Vercel with seamless CI/CD for faster global delivery.

Blood Report Disease Diagnosis Web App | Flask, Python, Random Forest, HTML/CSS

October 2024

- Built a web app to predict blood diseases from user-input blood count data.
- Trained a Random Forest model on medical datasets for high-accuracy classification of potential diseases.
- Built with Flask and deployed as a simple web interface for real-time interaction and feedback.
- Created during Sustainathon'24, hosted by Anjuman Institute of Technology and Management and Hack2Skill.

Technical Skills

Languages: Python, JavaScript (ES6+), Java, C, SQL, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Flask, Tailwind CSS

Databases & Tools: MongoDB, Git, GitHub, REST APIs, NGINX, Ubuntu Server, Cloudflare, GCP, VS Code

Platforms: Linux (Ubuntu Server 24.04 LTS)

Certifications

AWS Cloud Practitioner Essentials

May 2025

Amazon Web Services (AWS)

Credential ID: 134_3-7977891-1748103524

- Gained foundational understanding of AWS cloud concepts, billing, and infrastructure.
